

Product Comparison

ezWEB provides the power and flexibility necessary to meet today's business challenges. Your clients can get valuable business information using advanced reporting features such as automatic report delivery through ezWEB mail and the Manager's Dashboard; and dynamic filters and groupings through the enhanced, easy-to-use report writer.

Your PEO will become more efficient by allowing your clients to have direct access to features like employee self-service, online time entry, and online certified payroll. Please see our product comparison chart for a full list of upgrade features.
